PRODUCTS FOR VITAL LIFE

MATUZALEM – PERPETUUM OF LIFE

Matuzalem is a plant metabolism product produced exclusively from a plant raw material (leaves from black fermented tea).

Matuzalem is a very strong antioxidant, a specific molecule formula called a „MOLECULE OF LIFE“, that accelerates information flow from the brain to individual organs, gradually returning to the original status in case of its damage. The Molecule of Life has been awarded by the World Intellectual Property Organization „The Best World Invention 2009 Prize“.

Matuzalem Internal pills

are classical pills that release the active substance after passage through the stomach and gastrointestinal tract. Dissolution is implemented in duodenum from where it is absorbed and distributed to the entire body.

It is a very efficient form, physically the most active one, with a bit lower biological resorption. The pills are used when an active Molecule of Life is needed to be distributed to inner organs in long-term usage mode.

After application, drink a bigger quantity of water. Internal pills are most popular out of Matuzalem products range, preferred by 60 to 70% of users.

For an increased affect, the combination of Sublingual applied at **night** and Internal applied in the **morning** is ideal.

All Matuzalem kinds of products include identical active ingredient, distinguish from each other just by a carrier substance – a placebo and by a biological resorption feature in the organism. From this feature the speed of starting the effect and the way of distribution in the organism depends. All forms can be combined according to the needs.

In case of complicated cases, the combination of Sublingual applied at **night** and Internal applied in the **morning** is ideal.

We recommend to apply Matuzalem for the following cases:

- ▶ blood pressure and cardiovascular problems
- ▶ low sexual performance and insufficient libido
- ▶ stress and fatigue
- ▶ detoxication and regeneration
- ▶ organism rejuvenation

Warning:

The product is dedicated for adults only.

Mild exceeding the recommended daily dose does not make any risk for your health.

Matuzalem sublingual pills

Nutritional supplement with sweetener, flavonoid complex. Matuzalem contents extract from Camelia sinensis, red grapes (Vitis vinifera) extract and some vitamins:

- ▶ vitamin B2 (riboflavine), contributes to cells protection against oxidation stress
- ▶ vitamins B6 and B12 contribute to normal function of immune system
- ▶ vitamins B2, B6 and B12 contribute to a normal energy metabolism and normal activity of nervous system

This nutritional supplement is recommended to use 1 pill 1x daily to dissolve under the tongue. Maximum recommended dose is 2 pills daily. It is recommended to repeat the 30-pills cure once per 3 months.

Warning:

The product is dedicated for adults only.

Mild exceeding the recommended daily dose does not represent any risk for your health.

Matuzalem cream

Matuzalem cream is a modern molecular cream of new generation that contains the Molecule of Life as the only product on the market.

The cream harmonizes mainly information-energy exchange. The system is contained in our body cream; therefore it makes miracles with your skin.

Matuzalem cream is a "fitter".

The molecular cream usage is universal. It is ideal to apply on irritated skin after shaving, especially with beard hair in-growth problems.

We recommend the cream also in the following cases:

- ▶ after sunbath or by frostbite
- ▶ after a tube-bath or shower
- ▶ for decubites
- ▶ for psoriasis
- ▶ your skin is exposed to various extremely adverse impacts

Matuzalem molecular cream has a long-term effect.

Matuzalem also has a high hydro-active ability to biologically bind water causing a natural hydration and smoothing of the skin.

Matuzalem cream regenerates and eliminates unnatural hydration from the skin. An effect of rapid sensation of gentle, silk-smooth and naturally hydrated skin appears.

The product with the “molecule of life” content has been awarded by scientific awards and world patents.

Matuzalem jelly

Matuzalem jelly is a modern super-molecular jelly of new generation with the “molecule of life” dedicated for damaged skin.

Matuzalem body jelly is a modern molecular jelly of new generation with the “molecule of life”.
